

# Polex™ Super Polishing System

## The 2 in 1 Simple Solution for All Your Polishing Needs.

**Polex**, a unique combination of high tech abrasives and polishing additives removes paint imperfections and light topcoat sanding scratches without swirl or buffer marks. By simply switching pads, Polex will remove topcoat sanding scratches as well as finish to a highly lustrous shine. Simply... **Polex** is... POLish EXcellence!!

- Light Cutting and Polishing, 2 Products in 1. Polex is multi-functional and can be used as light cutting compound and polish, thereby eliminating the need for the variety of products a body shop may stock for their refinishing operations.
- Just Switch Pads, Not Polish. Total showroom gloss by only replacing pads in different stages of the refinishing process.
- Fast Cut, No Swirls, Excellent Shine. Polex's exceptional formula incorporates high tech abrasives and special components that result in a fast but smooth performance and an impeccable appearance.
- Contains No Wax or Silicone. Highly resistant to outdoor conditions, protects the paint and lasts longer.
- For All Paint Surfaces. Including dark and glamour colors.

### POLISHING PADS

**ORANGE**  
MEDIUM CUTTING PADS
