# SATAjet 1500 B SoLV – the solvent solution

SATA also extends an invitation to technicians using solvent paint products who would like to take advantage of SATA's quality and reliability at an affordable price. For those who have or have not used SATA spray guns before, step-up and give the SATAjet 1500 B SoLV a try.

The SATAjet 1500 B SoLV provides fine finishes with cost saving transfer efficiency and keeps the wetting that is required using today's Low VOC exempt solvent basecoat or the more traditional National Rule solvent basecoats. The SATAjet 1500 B SoLV is also a good choice for clearcoat appearance while meeting transfer efficiency and profitability expectations.

The nozzle system of the SATAjet 1500 B SoLV meets the demands for topcoat applications and delivers even material distribution throughout the entire pattern. It offers to solvent and Low VOC application the flexibility painters expect from a SATA gun. The balanced design results in required comfort and ergonomics, and the easy-to clean durable surface of the spray gun will work with any solvent-based material.

The SATAjet 1500 B SoLV offers the performance required to achieve quality finishes.

## PRODUCT BENEFITS

- Designed for Full System Application: solvent-based basecoats, either Low VOC or National Rule as well as sealer and clearcoat.
- Nice-sized, even spray pattern
- Wide air pressure range from 7 – 35 psi
- Fast working speed
- Smooth anodized spray gun body in a modern blue color tone
- Excellent value spray gun

### Order Numbers

	HVLP	1.3	1.4
Nozzle size	RP	1.3	1.4
Cpl. with RPS disposable cup 0.3 l / 0.6 l / 0.9 l		1010925	1010933
		1010892	1010917
Nozzle set		1010967	1010975
		1010941	1010959

### Technical Details

	HVLP	RP
Operating range	7 – 35 psi	7 – 35 psi
Air consumption at 26 psi air inlet pressure	12.4 cfm	10.2 cfm
